ECOLOPLUS

SIMPLE AND EASY TO USE:

Bio-Extrak is a dirt disintegrator that can be used anywhere, anytime. It does not contain any animal fat, chlorine, ammonia, caustic, phosphate or acid.

CONCENTRATION # 1 : Use pure on a dry or damp surface.

CONCENTRATION # 2 : Dilute one part of product for two parts water. 90 % of the time, this is the most frequently used dilution.

CONCENTRATION # 3 : Add 4 drops and less of the product to one liter of water. Special mix for glass and mirrors inside the home.

INTERIOR

Gold, silver, brass and copper jewellery : Soak in a small container using concentration # 2. Scrub with a small brush, rinse, then dry.

Fabric, clothing, carpets, velvet or other : For stain removal, spray with concentration # 2 rubbing with a moist white cloth, then dry.

Stubborn stain : Spray with concentration # 1, brush followed by a machine wash.

Greasy stains : Spray with concentration # 2, set aside for washing or place in the washer.

Faded white clothing : Use ½ cup of concentration # 1 in washer. Start washer for a few minutes then let soak for 4 to 5 hours. Proceed to wash normally without any soap.

Laundry : use **4 oz or 120 ml with concentration # 1** in the washing machine to replace your detergent.

Kitchen cabinets, melamine, chipboard, wood or other surfaces : Spray concentration # 2 and use a white cloth or white pad if stains are resistant. Rinse and dry.

Walls, ceilings, non-wax vinyl floors, wood, ceramic and other surfaces : Use 4 ounces in pail of water using a white pad or cloth.

Kitchen fan : Use concentration # 2 and a green pad.

Fan filter : Concentration # 2, let stand, brush or wash in the dish washer.

DISHWASHER

To replace the rinse agent : Use pure **Bio-Extrak** in the dish washer rinse dispenser. Cutlery and glass shine like jewellery.

Oven : Spray generously concentration # 2 and let soak. Apply another coat of product when you are ready to proceed. Use a specific pad for oven to clean.

Stove, refrigerator and household appliances : Spray concentration # 2, wipe and rinse.

Vertical and horizontal blinds : Use concentration # 2 (according to your water quantity). Wash, rinse & dry.

Carpet shampooer : Use 3 ounces of pure product in one gallon of water. Do not use any other soap and add anti-suds if needed.

Indoor glass and mirrors : Use 4 drops and less of pure Bio-Extrak in a liter spray bottle. Spray and wipe or use 2 sprays of the product in ½ pail of water, then wash and dry.

Leather products : Spray concentration # 2 on a damp cloth scrub, then rinse with a damp white cloth, and dry with a clean cloth.

BATHROOM

Washbasin, toilet, bath, shower, ceramic, marble or fiber glass : Concentration # 2 with a white pad, rinse and let dry.

Sediment between ceramic tiles : Concentration # 2 and green pad ; scrub and rinse.

Whirlpool tubing : Close air vents, add water to 2 cm above water jets. Add ½ cup of pure Bio-Extrak and start whirlpool bath.

Heat pump filter : Spray concentration # 2. Let soak and rinse.

EXTERIOR

BBQ grill : Once the grill has cooled, spray generously with concentration # 2. Before re-using, spray again and scrub with green pad or steel wool. Rinse thoroughly.

Interior and exterior of vinyl or fiberglass pool : Spray with the concentration # 2, scrub with the green pad and rinse.

Patio furniture : Spray concentration # 2, scrub with the white pad then rinse. No need to wipe or dry. If stubborn stains use a steel pad (000) without soap. Polish on a Teflon base car wax. **AVOIDING SUNLIGHT.**

VEHICULE

Cars, motorcycles, boats and trailers exteriors paint and cars body: Working in section ; wet the surface then spray concentration # 2, use brush or washing glove to wash and rinse thoroughly. Upon completion, rinse again and dry lightly. **DO NOT USE IN SUNLIGHT.** No need to wax because the product removes old wax and acid rain deposits and leaves it's own protective finish.

Cold motor : Wet with water then generously spray concentration # 1, let soak for 20 minutes, brush if necessary and rinse. May be used with pressurized washing machine. **DO NOT USE ON A WARM MOTOR.**

Spoked wheels, magnesium or other metal finish : Using concentration # 2, let it sit, scrub with the green pad, rinse and let dry.

Black and whitewall tires: Using concentration # 2, let it sit, scrub with the green pad, rinse and let dry.

Vinyl or leather interior : Spray concentration # 2 on a white damp cloth, scrub, then rinse with a white damp cloth. Dry with a white clean cloth

Stains on seats, carpets and belts: Spray slightly with concentration # 2, scrub with a white damp cloth and dry with a white clean cloth.

Boat exterior : Docking buoys ; use concentration # 2 and scrub with green pad, rinse.

Fiberglass boat shell and water line: Wet the surface then spray concentration # 1. Use the white or green pad depending on the amount of dirt. To clean the motor or the foot of the motor, use the same procedure. **DO NOT APPLY IN SUNLIGHT, DO NOT USE ON A WARM MOTOR.**

Golf bag and shoes or sport shoes and vinyl purses: Use concentration # 2 with the white or green pad. Rinse with a wet cloth and dry.

Exterior walls, vinyl awning, aluminum, paint and other surfaces : Wet the surface, spray concentration # 1. Clean with a brush followed by a rinse. If there are stubborn stains use a green pad. **DO NOT APPLY IN SUNLIGHT.**

Brick, uni-stone, pavement or cement oil stains : Wet the surface, spray the concentration # 1, let soak, brush and rinse. Procedure can be repeated.

Outdoor windows and frames : Spray concentration # 2, scrub with a cloth or white pad rinse copiously and dry.

COMMERCIAL, INDUSTRIAL AND FARM USE

Hotels, motels, restaurants, stores, apartments building maintenance, farms and other uses.

To wash: cars, trucks, boats, bus plane, trailers, motors home, motorcycles, black or white wall tires, machineries, parts etc.

Can also be used with pressurized washing tool.

The use of the white or green scouring pad is important when you clean. It allows at our product to work very well and to penetrate fibers as well as other surfaces. It is not necessary to rub energetically ; one gentle pressure is habitually sufficient.

**BIO-EXTRAK saves time, space, money and work. Say «good bye» to purchasing multiple cleaning products.
NO MORE INVENTORY!**

Use only one product to clean the interior or exterior of your house or garage or your business.

**KEEP OUT OF THE REACH OF CHILDREN.
AVOID EYES CONTACT. DO NOT SWALLOWED.**
